McIntyre 500HD
Alligator Shear

McIntyre 500HD Shear

This new generation shear is faster and more powerful than any other machine of its size. Featuring an automatic hold down clamp and 20 inch blade, this model is available as electric or diesel

Fast and strong

This 508mm, 20 inch, blade shear has been built for speed and power, and will out-perform every other machine in its field. The McIntyre 500HD has enough shear force to deal with a wide range of operations and materials including: the cleaning of automotive aluminium scrap, whole gearboxes, cylinder heads and blocks, oversized gate valves, and the handling of all non-ferrous separations. It can also be used for cropping ferrous metals.

Why is this the best for you?

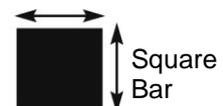

- fast and powerful
- electric or diesel options
- built to last
- wide range of applications
