

McIntyre

The gold standard in recycling systems

McIntyre 6140 Hippo

Metal Baler

McIntyre Hippo Metals Baler

Two powerful machines in one, giving you one robust unit available as either a semi-automatic or manual baler.

Huge cutting capacity

With a lid shear force of up to 160 Tonnes the McIntyre Hippo offers an exceptional cutting and baling capacity. Cutting edges on three sides of the loading box give the machine the ability to handle oversized materials with ease. The Hippo has been designed and built to last. Featuring long life hard wear plates which line the bale box, return-line filters to reduce wear and tear on hydraulic components and a lid fail-safe mechanism to prevent accidental damage to the main ram rod. Additionally, all ram rods on the Hippo baler are hard chrome plated to ensure maximum seal life. Additional features include optional bale track and sorting table, plus hopper tipping system for automatic feeding.

Technical Data

Machine dimensions:	3800 x 1550 x 1960mm
Length with Bale track:	6925mm
Loading height:	835mm
Bale Size:	680 x 381mm x Variable
Chamber Opening:	1016mm x 680mm (LxW)
Weight with oil:	9500kg
Oil capacity:	1400 Litres
Noise Level:	82 +/- 3dBA
Control:	Manual or Semi Automatic
Standard Electrical Requirements:	125Amp/3ph/380-415v/50Hz
Power Rating:	32A / 3ph / 380-415v / 50Hz
Motor speed:	1460 rpm
Max system Pressure:	207 Bar / 3000psi
Max Compression Force:	160 Tonnes
Max Lid Shear Force:	150 Tonnes

While we make every effort to ensure that our information is correct, technical data is for guidance only and subject to change. If any dimension or performance indication is important to you, please check with us before ordering.

Why is this the best for you?

- cutting blades on 3 sides of the lid
- stronger Shear force
- long life hard wear plates
- safe : lid fail-safe mechanism
