

McIntyre

The gold standard in recycling systems

Alpack 2000

Can Sorter

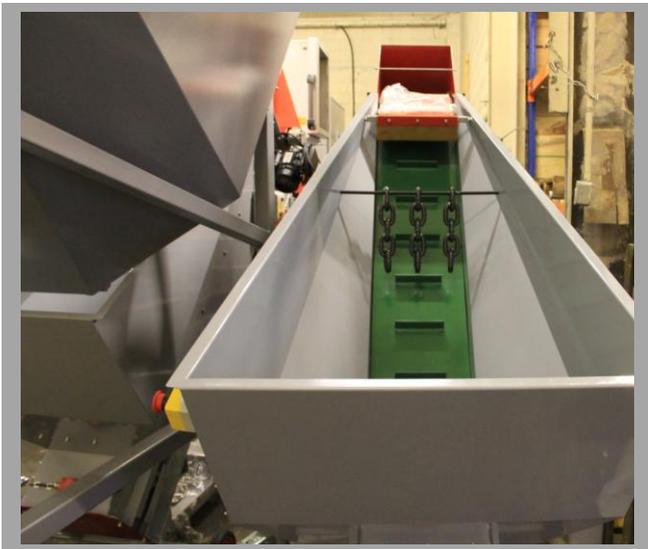

McIntyre Alpack 2000 Automatic Can Sorter

The McIntyre Alpack 2000 Automatic Can Sorter provides an inexpensive way of separating large volumes of steel UBCs from high value aluminium cans

Efficient, versatile, cost-effective

The McIntyre Alpack 2000 Can Sorter can work both independently or be coupled with a JMC Baler to provide a complete sorting and baling system. Alpack 2000 is able to give almost 100% separation of aluminium from steel.

Why is this the best for you?

- completely automatic
- almost 100% separation
- easy to move around a yard
- quick cycle time
- can run in-line or independently

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and best-performing range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service.
